Item Number	*Motors with External Li-ion Battery*
1003313	ALTUS 28 WireFree RTS 1.5/28 LI-ION

TECHNICAL DATA

Item Number	9020811
Battery Type	Rechargeable Lithium Li-ion
Rechargeable Battery Capacity	2600 mAh
Charger Cable Length	2.4m

INSTALLATION INSTRUCTIONS

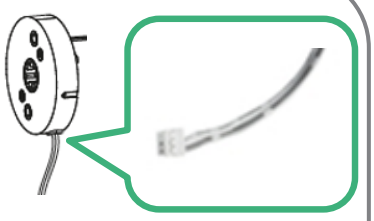

A

Connect the WireFree Li-Ion Charger mains wall plug into the Wall Socket.

Please ensure that the mains voltage complies with local standards (240V).

B

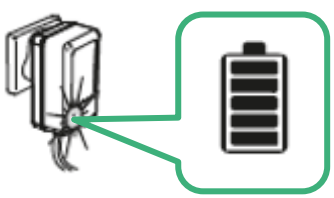

Connect the charging plug into the motor / battery pack.

The LED light on the mains wall plug will illuminate red (indicating the device is charging).

*Do not force plug into motor, ensure connector is correctly inserted

C

When the battery is fully charged, the LED light on the mains wall plug will illuminate green.

Once the device is fully charged, disconnect the charger from the device as well as the mains wall plug.
