

Sonesse® 30 Databook

Sonesse® 30 RTS

Somfy Systems, Inc., is a global leader in the manufacturing of strong, intelligent and quiet motors for both interior and exterior window coverings. For more than four decades, engineers at Somfy have been designing products for both the residential and commercial markets to motorize window coverings such as interior shades, wood blinds, draperies, awnings, rolling shutters, exterior solar screens, projection screens and more. Somfy motorization systems are easily integrated with security, HVAC, and lighting systems, providing total home or building automation. Somfy recently celebrated the production and sales, throughout the world, of 100 million motors since 1969. This accomplishment further reinforces that Somfy is the worldwide leader in the manufacturing of interior and exterior window covering motors.

- Somfy has a production capacity of more than 43,000 motors per day.
- Somfy motors have over 600 standards approvals worldwide.
- Somfy has certified over 100 patents since the year 2000.
- Every Somfy motor goes through an extensive quality assurance process including testing in extreme environmental conditions, for electrostatic discharge, mechanical shock, and high life cycle.
- Somfy has a network of 15,000 trained professional installers throughout the world.

Somfy operates in 54 countries, with 68 subsidiaries, and 51 agencies spread across 5 continents. With 7 production centers, Somfy is an efficient and reactive industry leader. Thanks to its strict quality standards, Somfy is able to satisfy the needs of over 270 million users worldwide.

Somfy understands that training and support are critical to success. Somfy's Expert 2.0 Program has been developed to provide a platform for those who want to enhance their expertise of motorization and control solutions. Contact Somfy directly or visit www.somfypro.com to learn more and sign up for training.

Conveniently Quiet

This document is a presentation of the accessories and specifications related to the Somfy Sonesse® 30 range. It provides the technical information needed to order, fabricate, and sell the award-winning quiet motors. For additional information regarding any of the products in this document including motors, power sources, controls, interfaces etc., please reference www.somfypro.com, where detailed instructions are available for download.

The award winning Sonesse® 30 range is putting window coverings in motion with ultra-quiet precision. The motors are engineered with superior noise reduction technology and are barely heard from a distance of 3 feet.

The compact, low-profile Sonesse® 30 motors are designed for tubes as small as 1.5" in diameter and are easily concealed within headrails, cassette systems or smaller pocket sizes. The motors feature speed regulation for precise alignment of adjacent shades and are low-voltage which simplifies installation. The Sonesse® 30 motors are available with a variety of control options and easily integrate with home automation systems. They also feature the ability to adjust to precise intermediate positions for increased control flexibility.

Radio Technology Somfy® (RTS) allows wireless radio control of motorized window coverings via the RTS family of controls.

Communication via the industry standard RS485 which is compatible with the Somfy Digital Network™ (SDN) and also easily integrates with third party control systems.

Offers control via contact closure switching (dry contact).

Sonesse® 30 motors are designed to automate a broad range of window covering applications which include:

Solar/Roller Shades

Sheer Horizontal Shades

Roman/Woven Shades

Pleated/Cellular Shades

Horizontal Blinds

As with all Somfy products, the Sonesse® 30 motors are backed by a 5 year warranty.

WCMA Award Winner, for Most Innovative Overall design.

Sonesse® 30 RTS

Sonesse® 30 RTS

Part #1001524

Radio Technology Somfy® (RTS) allows for wireless radio control of motorized window coverings via the RTS family of controls.

Technical features

Voltage Supply	DC
Index Protection Rating	IP 30
Limit Switch Type	Electronic
Limit Switch Capacity	35 Turns

Temperature Working Range	32°F to 140°F (0°C to 60°C)
Insulation Class	Class III
Antenna	Must not come in contact with metal. May need to be repositioned for optimal range

NOTE: Power cable is included with motor.

Dimensions - in. (mm)

Minimum window width bracket to bracket for roller shades (inches):

Acmeda 44mm tube and hardware	18 5/8"
Rollease 1.5" tube w/Skyline Hardware	19 5/8"
Rollease 1.5" tube w/R8 Hardware	18 1/2"

Performances

	SONESSE® 30 RTS
Voltage*	24VDC
Motor Power Connection	2pin JST, 2mm pitch
Nominal load starting current *	1.8A for max. 300ms
Nominal load current *	.8A
Maximum current during programming *	3.2A for 300ms.
Torque	17.7 in. lbs. (2Nm)
Speed	6-28 rpm (programmable)
Thermal protection	2.5 minutes
Minimum inside diameter of tube	1.22 in. (31mm)
Sound level	44 dBA
RF control range (may vary)	65 ft.

* Regulated power supply required

Fabrication Recommendations:

- Operational noise level is reduced when motor, tube, and mechanical accessories are properly adapted to motorized applications.
- Free play must be minimized between the accessories and the end product tube to ensure quiet performance of the motor.
- Interior Tube Diameter (ID) > 31mm must be respected.
- A motor crown adapter between motor and end product tube is required to ensure concentric operation of motor.
- ST30 Series Drive Stop and Screw (included with crown and drive), are recommended to prevent noise and drive wheel separation from motor shaft.

Included Cable

24V DC POWER CABLE

2 Conductor
7.5' Length

Sonesse® 30 RS485

Sonesse® 30 RS485

Part #1000658

Communication via RS485 which is compatible with the Somfy Digital Network™ (SDN) and also easily integrates with third party control systems.

Technical features

Voltage Supply	DC
Index Protection Rating	IP 30
Limit Switch Type	Digital
Limit Switch Capacity	35 Turns

TaHoma® SOMFY'S TOTAL HOME AUTOMATION SOLUTION

The Sonesse® 30 range works seamlessly with TaHoma® – Somfy's total home automation solution. Using Z-Wave®, an interoperable, 2-way RF mesh networking technology, TaHoma enables users to control, schedule, and monitor their Somfy motorized products, lights, and thermostats from Smartphones, Tablets and PCs.

Use the Z-Wave to RTS Interface (ZRTSI) to translate TaHoma's Z-Wave commands when using the Sonesse® RTS motor.

Visit www.somfytahoma.com for an interactive online demonstration.

The diagram illustrates the wiring for the Sonesse 30 DCT wall switch. It shows a central control unit (DRP-480-24) mounted in a rack, which is connected to a 3RD Party Controller (e.g., Crestron, Universal Remote Control, etc.) via a Cat5e cable. The controller is also connected to the switch via a 16 Gauge 2 Conductor 150 FT. MAX. cable. The switch is connected to a 120V AC power source via a 16 AWG Stranded, Olympic style 3133 or equivalent cable. The switch is also connected to a 120V AC power source via a 16 AWG Stranded, Olympic style 3133 or equivalent cable. The switch is also connected to a 120V AC power source via a 16 AWG Stranded, Olympic style 3133 or equivalent cable.

Switch to be wired to the non-isolated input ports

3RD Party Controller (For example: Crestron, Universal Remote Control, etc...)
