

Outdoor siren

112 dB outdoor siren with flashing light

THE OUTDOOR SIREN IN A NUTSHELL

When a break-in attempt is detected, the outdoor siren emits a loud 112 dB alarm and a flashing light alerts your neighbors, dissuading the burglar from entering. It completes your “Somfy Protect” alarm system perfectly by providing an effective outdoor alarm device for your house.

ADVANTAGES

1. Ease of installation and use

This wireless siren can easily be mounted on a wall (screws and anchors provided). It can be installed on any type of outdoor surface (IP 43) and should be placed at a height of at least 2.50 metres for optimal visibility and sound dispersion. You'll find the step-by-step installation instructions on the “Somfy Protect” application.

2. Security and reliability

Thanks to its tamper protection feature, you'll be alerted immediately if someone attempts to move or remove it.

TECHNICAL SPECIFICATIONS

Product reference number	2401491
