

Home Alarm

Complete security solution
alerting you BEFORE a break-in

THE HOME ALARM IN A NUTSHELL

The *Somfy Home Alarm* is a smart, reliable security solution that alerts you BEFORE a break-in, thanks to Somfy's patented IntelliTAG™ technology. Once connected, the Home Alarm is very easy to install and control from your smartphone. It is ideal for a house and can be adapted to suit your needs by adding products from the "Somfy Protect" accessory line.

ADVANTAGES

1. Dissuade burglars by alerting BEFORE a break-in

The Home Alarm detects break-in attempts BEFORE an intrusion thanks to its IntelliTAG™ door and window sensors. This patented sensor analyzes vibrations and alerts (local siren and transmission of smartphone notifications) if a break-in attempt is proven to have occurred.

2. Finally, stress-free daily living

Thanks to the hands-free disarming key fob, the system recognises users and automatically disarms the alarm when they come home. Forget about keypads, codes and false alarms! With the kids feature, you receive a notification on your smartphone as soon as your children come home from school.

3. Create a community of trust to watch over your home

The *Somfy Home Alarm* is the first system that allows your loved ones (friends, neighbors, family, etc.) to keep an eye on your house when you are away. To go further, you can also take advantage of an on-demand remote surveillance service without any commitment (subject to subscription).

4. Customize your solution

Based on your needs, you can complete your Home Alarm system with "Somfy Protect" security accessories sold separately: 112 dB outdoor siren, additional 110 dB indoor siren, IntelliTAG™ sensors, key fobs, indoor motion sensors, surveillance cameras, etc.

TECHNICAL SPECIFICATIONS

Product reference number	2401497
EAN code	3660849508616
Content	1x 110 dB indoor siren 3x IntelliTAG™ sensors 2x key fobs 1x indoor motion sensor 1x Link (the hub, which can be easily plugged into an electrical outlet)

MSRP
€399

Availability
Available

Packaging
Cardboard box

Warranty
2 years

Home Alarm

Installation

- Free application for iOS 9 and higher, Android 4.4 and higher
- Automatic recognition of peripheral devices by the hub

Scalability

Combine with up to 50 sensors (IntelliTAG™ or motion sensors) 50 key fobs, 2 indoor sirens and 2 outdoor sirens, 4 video devices (Somfy Security Camera, Somfy One or Somfy One+) and 2 radio extenders.

Wireless communication

- Bluetooth 4.0
- “Somfy Protect” 868Mhz radio module
