Sonesse® – The range of quiet motors

DESIGNED FOR ACOUSTIC COMFORT, DESIGNED FOR SUCCESS
Both in the office and at home, silence is now viewed as a key factor for well-being. Somfy is committed to helping you make silence the standard in your markets. With the Sonesse® range, Somfy makes acoustic performance the added value of your solutions.

### Innovation and sound control

The Sonesse® range of high-acoustic-performance motors and accessories has been developed by Somfy’s global team of engineers and technicians using state-of-the-art research and development tools. In total, the brand has registered six patents for the Sonesse® range, with Sonesse® 30 receiving a Window Covering Manufacturers Association (WCMA) Product Innovation Award.

### Somfy: the creator of intelligent and sustainable movement

With 40 years of experience providing motorisation solutions for building openings, Somfy has developed an unrivalled choice of solutions including motors, control units, automatic devices and transmission technologies. Somfy is now the designer and world leader in Home Motion: intelligent and sustainable movement in residential and commercial buildings.

### Sonesse® 30

- **Wheels and crowns for cylindrical and octagonal tubes.**
- The brake, rotor, gear box and accessories are all specially designed to absorb sources of noise.
- The new Sonesse® 40 offers a special range of accessories, helping you to create an offer that provides maximum acoustic comfort, from design to integration.

**New Sonesse® 40**

**DESIGNED TO SET THE NEW ACOUSTIC STANDARD**
Sonesse® – The range of quiet motors

**DESIGNED FOR SUCCESSFUL BUSINESS**

**Sonesse®: an offer designed for you**

- Offer quiet, customised, value-added indoor window coverings that set you apart from the competition and help you to gain new business.
- Receive assistance at every stage of the installation process to ensure that your ultra-quiet motorised products offer the very best performance.
- Optimise your productivity: The Sonesse® motor is so easy to integrate that you can optimise your productivity without changing your assembly methods.

**Bring your creation to life**

Sonesse® is available with a wide range of torques and speeds to motorise all indoor applications, including the most demanding in terms of aesthetics, well-being and... silence.

**Somesly: a long-term professional partnership**

Somfy is committed to building long-term partnerships to ensure that you benefit from the very latest advances in acoustic performance for indoor motorised products.

In order to help you meet the challenge of silence, we are creating a network of partners and experts specialised in accessories and fabrication that maximise the noise reduction benefits of the Sonesse® range.

Thanks to these partnerships, the acoustic quality of your products will remain at the cutting edge of the market.

**DESIGNED FOR ALL APPLICATIONS**

**ROLLER BLINDS**

**VENETIAN BLINDS**

**ROMAN BLINDS**

**PLEATED & CELLULAR BLINDS**

**PROJECTION SCREENS**
Silence, simplicity, privacy, thermal comfort, natural light quality and sustainable performance are the driving forces behind our product development processes. That’s why the Sonesse® range offers an unrivalled choice of motors, accessories and automatic devices designed with well-being and the environment in mind.

**Your response to commercial building requirements**

Creating design-inspired, sustainable architecture with bioclimatic façades

Sonesse® motors are compatible with Somfy’s bioclimatic façade management systems. They act as automatic, intelligent filters that adjust the amount of natural light without affecting motor levels.

Benefits:
- Improved thermal and visual comfort
- Energy savings
- Reduced maintenance costs
- Infinite architectural possibilities

**Your response to residential requirements**

Creating a living home that meets user needs

Sonesse® solutions are easy to install and are compatible with home automation and centralised management systems. Sonesse® motors fit perfectly into all decors and offer a wide selection of control units for long-term benefits: silence, privacy, control, visual and thermal comfort... and occupant well-being.

- Compatible with the full range of RTS radio control units and automations

**Telis 1 RTS**
To operate a single blind or a group of blinds.

**Telis 1 Modulis RTS**
To operate a single Venetian blind or a group of Venetian blinds. Central thumbwheel for accurate and intuitive adjustment of the slat tilt.

**Telis 16 RTS**
Remote control that allows you to control up to 16 groups, each containing one or more products. A large screen makes selection easier.

**Smoove 1 RTS**
Wall-mounted, touch-sensitive room control unit to operate one blind or one group of blinds.

**Compatible with home automation systems**

**WS485 RTS interface**
To control all Radio Technology Somfy® applications via a centralised control system.

**6 Sonesse® motors are compatible with Somfy’s bioclimatic façade management systems.**

They act as automatic, intelligent filters that adjust the amount of natural light without affecting motor levels.
