

# How To:

Create or Delete an Amazon Alexa Routine  
For use with Somfy myLink™ Smart Home Skill

# STEP 1

## Create Routines

- > On the main menu of the Alexa app, SELECT “Routines.”

**NOTE:**

***Before creating a new routine in the Amazon Alexa app, make sure you have created a scene or schedule within myLink that can be triggered using Alexa.***

- > How to create and execute scenes, reference link:

How to create and execute schedules, reference link:

- > <https://www.somfysystems.com/Blog/Post/2017-01-19-somfy-mylink-how-to-create-execute-schedules>

## STEP 2

### Create New Routine

**NOTE:**

*The first part of creating your routine is to select your trigger phrase.*

*Let's create a "Good Morning" routine — using a Shade UP scene already created in the myLink app.*

- > In the upper right hand corner, SELECT the (+) icon.
- > Next, SELECT the (+) next to "When this happens."

## STEP 3

### Create your Routine Trigger Phrase

- > SELECT "Voice" icon to create your Trigger Phrase.

*On this screen, you can select the specific voice command that will trigger Alexa to perform the desired routine using your Somfy myLink.*

- > Next, enter phrase.

*For this example, we are using "good morning."*

- > CLICK "Next."

- > SELECT the ( + ) icon next to "Add action" to create the response to this new Alexa routine.

- > SELECT "Smart Home."

## STEP 4

### Select Device

> Next, you'll see a list of your devices that can be used in this routine. Or, the Alexa app will prompt you to discover all available devices.

> **SELECT** the desired device.

*In this example, we will SELECT "Roller Shade," our myLink device.*

*Next, you can turn the Roller Shade On (shade goes UP) or Off (shade goes DOWN).*

> **SELECT "On"** – confirm checkmark next to Power.

*For this example, we want our Roller Shade to go UP when we say "Alexa, good morning."*

> You'll see a "Success" notification appear on the top of the screen. Setup is complete!

**NOTE: You can add or remove devices from your routine at any time.**

## Select & Delete Routine

- > On the Edit Routine screen, SELECT the (⋮) button in the upper right hand corner.
- > SELECT "Delete Routine."
