Somfy launches Sonesse® ULTRA 50, quietest and strongest tubular motor on the market in both AC & DC versions.

Somfy Systems is the leading global manufacturer of strong, quiet motors with electronic and app controls for interior and exterior window coverings. During the past 45+ years, Somfy has produced over 160 million motors for blinds, shades, drapes, awnings, rolling shutters, exterior screens and projection screens. Somfy-powered solutions easily integrate with home automation systems.

Over 50 Years of Expertise

Somfy — A Trusted Leader for Decades

- 100 million motors produced since 1980.
- SIMU is acquired in early 1990s.
- In 2012, Somfy celebrated the production and sales, throughout the world, of 100 million motors. This accomplishment further reinforces that Somfy is the worldwide leader in the manufacturing of interior and exterior window covering motors.

- Somfy’s first subsidiary is created and began first orders of tubular motors for blinds and rolling shutters.
- In 1980, the first automatic wind/sun system was launched. The Somfy Expert network was created.
- Société d’Outillage et de Mécanique du Faucigny became Somfy, a limited company.
- Somfy launches Radio Technology Somfy® (RTS).
- In 1969, the first automatic wind/sun system was launched. The Somfy Expert network was created.
- 8 manufacturing plants
- 125 subsidiaries spread across 5 continents in 58 countries

In 1980, the first automatic wind/sun system was launched. The Somfy Expert network was created.

Société d’Outillage et de Mécanique du Faucigny became Somfy, a limited company.

In 1969, the first automatic wind/sun system was launched. The Somfy Expert network was created.

Somfy launché Sonesse® ULTRA 50, quietest and strongest tubular motor on the market in both AC & DC versions.

Société d’Outillage et de Mécanique du Faucigny became Somfy, a limited company.
THE POWER OF SOMFY

160 million motors produced and sold since 1969

Production capacity of 70,000 motors a day

270 million users worldwide

Motors backed by a 5 year warranty

45+ years of experience

4 distribution centers across North America

100% products tested
Windows are Opportunities that Generate Value-Added Revenue

Controlling motorized window coverings powered by Somfy along with lighting, HVAC, and security systems adds value for users while putting money in your pocket!

Benefits of Motorization

Installing motorized window coverings enhances all the benefits of manual products.

- Reduce energy costs
- Instantly create privacy
- Conveniently manage glare
- Increase
Somfy-powered window coverings combine performance and a wealth of experience to maximize the value of home automation systems.

- **Security**: Easily adjust hard-to-reach or hard-to-manage window coverings.
- **Easiness**: Automatically protect valuable furnishings from harmful UV rays.
- **Safety**: Fewer cords make homes safer for little ones.
What can be motorized?

- Roller/Solar Shades
- Horizontal Blinds
- Sheer/Layered Shades
- Draperies
- Cellular/Pleated Shades
- Roman/Woven Shades
- Silhouette® & Vignettes®
- Awnings
- Exterior Screens
- Rolling Shutters
- Pergolas
- Projection Screens
- Skylights
Somfy offers products to motorize shades, drapes, blinds, and more. Whether you are creating a home theater experience, looking for the quietest motor possible, or interested in control via a home automation system, SOMFY has a solution for any residential or commercial project.

Let SOMFY help take your business to the next level.

Control Somfy-powered solutions with the same device as most third-party automation systems.
Motors, Power & Technology

Motors and controls are backed by a 5 year warranty.

Quiet & Strong

**Sonesse® ULTRA 50**
Motors are designed to be the quietest & strongest motors available on the market today. Available in both AC & DC, these high-performance motors are a must-have wherever silence offers everyday comfort.

Largest motor range
- Interior and exterior applications
- Widest range of lifting capacities
- Multiple power options including embedded battery

Power options

**WireFree Range**
12V DC Rechargeable Lithium-ion battery* or Reloadable Battery Tube (uses 8 AA Lithium batteries) available.

**Solar**
Rechargeable batteries that truly harness the power of the sun.

**Wired**
Plug-in or in-wall wired.

* Not available for tilt nor cellular applications
### Control Technologies

SOMFY is committed to
Service & Support

Getting Started
Ensuring a positive experience with Somfy-powered solutions is our goal. To help you succeed, we will partner you with a fabricator from our nationwide network to provide a finished motorized window covering ready to install. Our Project Services team can also provide support from the initial design phase to project completion.

Standard Technical Documentation | Nationwide Training | Project Design & Commissioning Services | Job Site Support | Internal & External Design Tools
Somfy Integrator Program

Training
Experience detailed motorization training right from your computer, at any hour of the day, from anywhere.

SomfySystems.com
A website filled with resources to help you succeed.
- Online technical support
- Specification sheets
- Programming instructions
- How-to videos
- Integration configurator
- Training
- Webinars

Sales Tools
Promote Somfy-powered solutions with literature, working samples, showroom displays, pens and apparel.

For more information on our Integrator Program, please visit www.somfysystems.com/integrator-program
SOMFY® is the leading global manufacturer of strong, quiet motors with electronic and app controls for interior and exterior window coverings. Over 270 million users worldwide enjoy the more than 160 million motors produced by Somfy. During the past 45+ years, Somfy engineers have designed products for both the commercial and residential markets to motorize window coverings such as interior shades, wood blinds, draperies, awnings, rolling shutters, exterior solar screens and projection screens. Somfy motorization systems are easily integrated with security, HVAC and lighting systems providing total home or building automation.
