Wireless solar sensor for motorised equipment  
Even more comfort

# Sunis WireFree™ II io

Wireless solar sensor for motorised equipment

Even more comfort

Somfy design, always...

- discreet, attractive, wireless

io technology, clearly...

- ultra-secure protocol with real-time feedback

Simple, Somfy-exclusive pairing, now...

- quick to install with its PROG button, no sensor box needed anymore

ATTENTION:

- The Sunis WireFree™ II io sensor is not compatible with the Easy Sun io transmitter.

- Add a Sunis WireFree™ II io to an awning, screen or other equipment to better manage the inside temperature.
- Save energy and costs by not having to cool your house in summer time.
- Also use the Sunis WireFree™ II io to avoid glare on TV or computer screen, adding to your indoor comfort.
